

**Weekly Update: Week of July 25, 2022**

**Maintenance:**

- We will be mowing through the community on our Normal Schedule. If you do not want us to mow, please leave out the white “no service” flags.
- We will edge the beds next week.

**Pruning:**

- We will continue pruning on the Parkways and COS areas.
- If you have a red magnet, we will not be pruning your home.

**Irrigation:**

- Thank you to all the residents that have turned in broken heads on NABR network. That helps maintain the effectiveness of the Irrigation System.

**Turf Alert:**

- With the high humidity that has returned to the area we are starting to see more instances of Brown Patch.

- The spray is more of a spot treatment and the granular is a preventive treatment that works long term in the soil. Please remember to read the instruction before using them.

**Turf Application:**

- We will be retreating the parkways next week for grassy weeds.

All schedules provided are weather permitting. The rotation will shift days but remain in the same order. All questions, concerns, and work requests related to landscaping and irrigation must be submitted through the NABR Network website. Ross Broadway, Account Manager, and Brian Lowe, Branch Manager, will review and respond accordingly.

Residents are reminded to reference the Landscape Service Guide on scope of service.
