

Weekly Update & Plan: November 21th – November 25th

Maintenance:

- As we move through the second half of November, we will start to wrap up mowing for the season, and transition into leaf cleanups as the turf slows down and stops growing. Below are the streets we plan to mow next week, to complete the final mow rotation.

	21-Nov		22-Nov		23-Nov		24-Nov		25-Nov
Sumner Grove		Southern Springs Blvd.		Lodge, DeI Webb Blvd		Thanksgiving Day Holiday Off		Thanksgiving Holiday Off	

Leaf removal:

- We will start leaf removal the week after Thanksgiving. As we move through the community we will blow out and mulch up leaves as needed around the homes and COS. We will try and focus our attention on the areas that have the heaviest leaf accumulations, which is typically the older sections of the community.

Perennial Cutbacks:

- We will begin winter pruning with ornamental grass cutbacks once we get through our leaf cleanups.
- Once the ornamental grasses are completed, we will then move onto the other perennials and rotate through the homes as well. This will occur mainly through the month of January.

Irrigation:

- All Common Area Irrigation is turned off and backflows drained for the season. We have our irrigation techs working to blow out the systems in the coming weeks.
