

**Weekly Plans and Notes (1/17 – 1/21)**

- **Opt-Out List:** The only service that a homeowner can opt out of in 2022 is the care of the landscape beds. If a homeowner decides to join the Opt-Out List, then Brightview will not prune the shrubs or perform weed control in those homes landscape beds.
  - The Opt-Out List does not cover the turf application. The HOA does not allow homeowners to opt-out of the turf treatments.
  - Last month we removed the opt-out magnets from last year. If you wish to sign up for the Opt-Out list, please Log in to the Nabr Network and submit a Work Order Request. That way there is a record for the homeowner, Evergreen, and Brightview.
  - Brightview thanks those homeowners who have already reached out and been added to the 2022 Opt-Out List.
  
- **Maintenance:** With the snow and ice from Sunday's storm sticking around until Tuesday we switched from cutting grasses to trimming street trees. We focused on trees that were not pruned last year, nor planted last year. Next week we will be refocusing on the COS grasses and perennials.

**Thanks for your time and have a great day!**
