

### Weekly Plans and Notes (04/19 – 04/25)

- **Maintenance:** Last week we were able to get caught up on the Mowing from the prior week's Turf Treatment. This week we are going to mow the Parkways and entrance first on Monday. We will then split out to the homes. Next week I will put out the Mow Schedule that we will work with for the rest of the cutting season.
  - **Edging:** We will be edging the bed next week.
- **Pruning:** The next scheduled Pruning will begin in Mid-May.
- **Irrigation:** The COS Irrigation systems will be de-winterized and started up for the 2021 season in the next few weeks. Note: We will NOT be running any zones except those that water flowers to start off. We do not start turf zones until the temps climb into mid 80s for multiple days in a row.
- **Turf Applications:** Last Week, we noticed that throughout the community there was a brown stripe in certain areas of the turf. On Tuesday morning, I had Weed Man back out in the community to tell me what was going on. First, THE TURF IS OK. The strips are a little bit of over lapping spray from the post emergent. It has browned out the tips of the turf and it will be a couple of cuts before it goes away. The reason it will take a couple of cuts is because we are cutting the turf at 4 inches. I will continue to closely monitor the entire community over the next few weeks to ensure that the turf rebounds.

Have a Great Weekend!
