

### Weekly Plans and Notes (06/28 – 07/02)

- **Weather:** Yesterday ended our streak of no rainfall, we received .35 inches of which helped to green up a lot of yards.
- **Irrigation:** Remember irrigation is a supplement to rainfall not a replacement of it.
  - Tip: Adjusting the seasonal setting on your Controller ups the watering time on ALL zones. When you may just need to adjust the time in one zone.
  - Install Update: The system at Del Webb and Franklin Springs is completed.
  - The Mainline has been repaired at Pump 2 and that system is operational. We are performing checks on it starting today and into next week.
- **Maintenance:** This week our crews did not mow the parkways as they were still stressed from the Heat and Drought.
  - **Edging:** We will be edging the Concrete next week.
- **Turf Application:** The third round of turf application is has been scheduled. It will begin near the End of July. We have pushed it back due to the heat stress and low rainfall.
- **Pruning:** We will continue pruning the Lodge and Common spaces for the next week. The flowering shrubs are starting to produce flowers so we will be pruning the flowering shrubs toward the end of the month.

From our Families to Yours  
Have a Safe and Happy Fourth Of July!

Please use TownSq to submit questions and concerns regarding Landscape and Irrigation. Ross and Brian both get those requests and will respond appropriately.
