

Weekly Plans and Notes (07/26 – 07/30)

- **Weather:** This week we have had some of the Hottest condition of the year. Due to the extremely high Heat index values for the last few days we shut down production this Afternoon. Please be careful and limit your outdoor activity and drink plenty of water and lower calorie sports drinks like Gatorade.
 - The Conditions are again right for Brown Patch and Pythium Root rot to form. If you think that either of these is showing up in your yard you can, reach out to us through a Town Square Request to help you identify it or you can stop by Lowes or Home Depot and pick up a lawn fungicide. For Example:

- **Irrigation:**
 - With the turf treatment coming on this week please make sure you irrigate your yard this week. This will help both the Fertilizer and the weed spot spray.
 - Please if you see a zone running for an area getting irrigated for a long period of time please reach out to us on Town Square (under COS Irrigation).
 - Watch your lawn, it will tell you if it needs more water turn up that specific zone, not the Seasonal Adjustment.
- **Maintenance:** For maximum effectiveness we were able to stay in front of the turf treatment or at least 2 days from starting on what had been sprayed. With the Temps in the 90's and with indexes over 100 we shut down for safety reasons early on Friday. We did not finish Overton (east Short side) Clay Court and Clay place to Overton, Pickett Place, Wilson Springs and Carter Court and Carter Trail. These will be mowed first on Monday.
 - **Edging:** We will be edging the Beds next week.
 - **Bush Hogging:** We finished with the main bush parts and will be wrapping up the smaller areas in the next 2 weeks. Please be careful and do not walk in these areas. They are not finished graded and they also have ticks and other wildlife.
- **Turf Application:** Round 3 Turf Application is completed. It was a fertilization and a Spot Spray for turf weeds. The fertilizer is put out at 4 lbs. per 1000 Square ft. and the spot spray is only for the turf weeds not the whole yard. With the completion of this round we will have Round 4 schedule before we start Aeration and Over-Seeding.

Please use TownSq to submit questions and concerns regarding Landscape and Irrigation. Ross and Brian both get those requests and will respond appropriately.

- **Pruning:** Next week we will be pruning the flowering shrubs and spot pruning throughout the homes. We have completed last weeks scheduled days and this is the schedule for the next 2 weeks.

Monday		Tuesday		Wednesday		Thursday	
26-Jul		27-Jul		28-Jul		29-Jul	
Details, Estates (Pruning)		Details, Estates (Pruning)		Carter Ct & Tr, Overton (east), Pickett		Tipton (L&S), ShelbySprings & Park, Clay Court
