

Weekly Plans and Notes (08/02 – 08/06)

- **Weather:** We have had some great temps this last week! The only down side is we have had little to no rain in the last 7 days.
 - The Conditions are still right for Brown Patch and Pythium Root rot to form. If you think that either of these is showing up in your yard you can, reach out to us through a Town Square Request to help you identify it or you can stop by Lowes or Home Depot and pick up a lawn fungicide. For Example:

- **Irrigation:**
 - Please if you see a zone running for an area getting irrigated for a long period of time please reach out to us on Town Square (under COS Irrigation).
 - Watch your lawn, it will tell you if it needs more water turn up that specific zone, not the Seasonal Adjustment.
- **Maintenance:** For maximum effectiveness we were able to stay in front of the turf treatment or at least 2 days from starting on what had been sprayed. With the Temps in the 90's and with indexes over 100 we shut down for safety reasons early on Friday. We did not finish Overton (east Short side) Clay Court and Clay place to Overton, Pickett Place, Wilson Springs and Carter Court and Carter Trail. These will be mowed first on Monday.
 - **Edging:** We will be edging the concrete next week.
 - **Bush Hogging:** We finished with the main bush parts and will be wrapping up the smaller areas in the next 2 weeks. Please be careful and do not walk in these areas. They are not finished graded and they also have ticks and other wildlife.
- **Turf Application:** After Reviewing Town Square request and not liking what we observed in the turf treatment, I had Weed Man back on site to do some retreatment. Friday. They retreated a few streets for missed fertilizing. We will have Weed Man back out next week to follow up on the weed application. This application will take a bit of adjustment to make sure the mowing is either ahead of or a day behind the treated turf. Round 4 Turf application (weed treatment spray) will begin at the start of September.

- **Pruning:** Next week we will be pruning the flowering shrubs and spot pruning throughout the homes. We have completed last weeks scheduled days and this is the schedule for the next 2 weeks.

	2-Aug		3-Aug		4-Aug		5-Aug
	Clay Place		Franklin Springs & Park, Davidson Walk, Coffee Ridge		Humphreys Glen, Grainger Springs
