

### **Weekly Plans and Notes (9-21 through 9-26)**

- **Mowing:** Our normal mowing schedule has been off this week as we have begun A&O and with some rain delays. All homes will be cut, with the following being mowed tomorrow (Saturday).
  - Humphrey Glen (long side), Bledsoe, Del Webb Blvd
  - Crews were edging beds this week.
  - **Next Week:** (edging curbs/driveways/sidewalks)
    - **Monday (both crews):** Estates, Knox Glen, Loudon Hill, Overton way (Lodge Side), Henderson, Lawrence Ridge, Madison.
    - **Tuesday:** Fayette Court, Gibson Trail, Then Move to Carter Court & Trail, Wilson Springs, Pickett, Overton (short Side), Clay Court & Place,
    - **Wednesday:** Tipton, Clay Place, Shelby Springs, Franklin Springs and Davidson Walk
    - **Thursday:** Coffee Ridge, Davidson Walk Short Side of Humphreys Glenn.
  
- **Irrigation:** If anything is running during the day, then that is our irrigation tech doing a system check. If a zone seems to run for more than an hour, there is probably an issue and please report that to us, via TownSq.
  - We have dialed down all the irrigation run times and days of the week, since we have had such cool temperatures. We would recommend that residents turn down their irrigation as well. Due to the cool temperatures, the turf is not drying out as fast and therefore the drainage areas are staying very wet.
  
- **Aeration and Overseeding:**
  - We have completed the main parkways, the Sales Center and the Lodge this week. We will begin again on Monday, starting with the homes we mowed on Saturday. Once those are completed we will move over to the Estates and then follow behind the mowing crews. Again, it will still take another 2-3 weeks to complete all homes.
  - Once your yard is aerated/seeded, the mowing will be skipped the following week to allow the seed to settle and germinate. We will do our best to mow your home, then aerate within a few days after that.
  - **Flagging AT&T lines:** we have called 811 at the beginning of this week and they will be marking the buried ATT lines. They typically only paint the lines though so residents may need to flag them if there is still concern about avoiding the buried lines with the aerators.

**Please use TownSq to submit questions and concerns regarding Landscape and Irrigation. Ross and Brian both get those requests and will respond appropriately.**

- **Fall Pinestraw:** the Fall application has started this week. It will take about 2-3 weeks to complete. This will be for all COS beds and homes. We will have a trailer of Pinestraw staged in the empty cul-de-sac of Fayette Ct. They began at the front entry and have been working through the main parkways.

### Upcoming Services

- Fall Flowers: The fall rotation of annual flowers will be in mid-late October.
- Irrigation System shutdowns: We will begin shutting down the COS systems in early November.
