

Weekly Plans and Notes (10/19 – 10/23)

- **Mowing:** This week Our Mow Crews completed mowing The Estates, Del Webb Blvd, Humphrey's Glen (the Long Side), Grainger Springs, Cannon Ln, Fayette Ct, Gibson Trail, Madison Ln, Henderson, Lawrence Ridge, Overton (Lodge Side), Loudon Hill, Knox Glen and Finally the Lodge and Sales Center.
 - **Next Week:** We will mow everything that was not mowed this week starting on Monday at Carter Ct. and mowing everything on the East Side of Del Webb Blvd and finishing on the Short Side of Humphrey's Glen.
 - **Moving Forward:** With the change in the season and the completion of Aeration and over seeding, the mowing will not be a normal weekly cut from now on. We will rotate through the final mowings as needed through November.
- **Bed Weeds:** With the completion of pine straw we will be following it up with spraying weeds in the beds throughout the community.
- **Irrigation:** If anything is running during the day, then that is our irrigation tech doing a system check. If a zone seems to run for more than an hour, there is probably an issue and please report that to us, via TownSq.
 - The break along SS Parkway, across from the Models, is repaired and we will fill in the hole next week and have the concrete repaired again. When the concrete was poured, it cracked the fitting under that section of sidewalk, which is what caused the new leak.
 - With the Warranty Plant replacement completed in the COS areas we will be finishing up checking the irrigation to make sure of coverage and repair any breaks. Again if you see anything running for longer than an hour please reach out to us on Town Square and put the request in under urgent.
- **Pruning:** Next week we will start pruning @ the Estates then move onto Knox Glen, Loudon and Overton and ending the week on Henderson.
- **Turf Applications:** The fifth round turf treatment is scheduled for the mid to late November. Final dates to come in the following weeks.
- **Leaf Management:** Over the next few weeks we will be begin our leaf management of the property. Our focus will be on areas with high concentration of leaves down and we will move throughout the property as needed.
- **Completed Services:** Over the last few weeks we have completed the Fall Rotation of Flowers, Aeration and Over Seeding, and the fall application of Pine Straw.

Have a great weekend and enjoy this wonderful weather!!!

Please use TownSq to submit questions and concerns regarding Landscape and Irrigation. Ross and Brian both get those requests and will respond appropriately.
